

Product Summary

Jobcentre Locations GB is a data product that contains point locations for Department of Work and Pensions (DWP) jobcentres in England, Scotland and Wales.

The data product has been compiled from addresses and other information disclosed by DWP in October 2025 in response to a Freedom of Information request. A copy of the FOI release and correspondence is included in the Docs folder.

Latitude and longitude of each jobcentre has been appended based on postcode locations, using information from the [August 2025 release of the ONS Postcode Directory](#) (ONSPD).

Data methods and quality statement

Datadaptive has taken reasonable care in compiling and preparing the data. However, the accuracy and currency of the data is dependent on the source data.

Datadaptive has corrected 21 defunct postcodes that appeared in the DWP source data. A further five postcodes were not found in ONSPD and were geocoded manually.

The data does not include [temporary jobcentres](#).

Datadaptive has not verified the DWP source data against jobcentre addresses available from DWP's ['Find your nearest office'](#) service.

Data formats

The data is supplied as a table in CSV format, and as geocoded point data in GeoJSON format with the WGS84 projection.

Licensing

The data may be re-used under the terms of the [Open Government Licence 3.0](#).
